Thermoform's thermoplastic products are covered from the date of purchase by a 12-year warranty against manufacturing defects resulting in delamination. Under this warranty, Thermoform will exclusively replace defective thermoplastic products. Such replacement does not renew or extend the warranty time period. The warranty does not apply to damage resulting from:

- normal wear and tear
- abusive use or improper use or maintenance
- incorrect installation
- accidents or negligence
- exposure to excessive heat sources
- alterations or repairs not conducted by qualified Thermoform personnel

This warranty does not cover transportation, installation or labour costs or other costs resulting directly or indirectly from the replacement of defective products, or any damages, detriments or prejudices. Proof of purchase must be provided. Coverage under this warranty may not be extended or prolonged by any distributors, representatives or agents. Products are replaced according to model, profile, finish, dimensions and quantities of original production. Modifications are entirely at Thermoform's discretion. According to product availability at the time of replacement, substitutions may be necessary. Thermoplastic sheets and edge strips are excluded from the warranty.
