THERMOFORM

MOLDED

A VERSATILE CLASSIC, A VAST ARRAY OF OPTIONS

Our MOLDED doors are made of pine fiber, which has the perfect density and surface characteristics for thermoforming. The surface is unbelievably smooth, and the profile details are spot-on. Our automated bonding process and exclusive adhesive ensure that our doors are durable and stand up to wear and tear.

5-PIECE

PERFECTLY UNIFORM, IMPECCABLE LOOK

We were the first to offer 5-PIECE doors made entirely of polymer. And we continue to lead the industry with fully automated assembly that provides unparalleled sturdiness and reliability.

EDGED

SIMPLY STYLISH, MODERN EUROPEAN FLAIR

Our EDGED polymer doors boast a sleek look that's right at home with the latest architectural designs. The front and back of each panel can be the same color or two totally different colors. You decide how edgy you want your kitchen to be!

COLORS

WITH OVER 150 COLORS IN MULTIPLE TEXTURES AND FINISHES, CULTIVATING A UNIQUE STYLE IS EASIER THAN EVER.
